

Please keep national broadcasters on the air. K-LOVE, the national station, provides a service in our community (Bangor, Maine and surroundings) that is otherwise not available. Depriving the many of us in our locale of this station would deprive us of the music, spiritual inspiration and support and news items that are otherwise not available in our community. Plus it allows us a connection with others around the country who share our faith tradition. Please keep the transponders operating!
